<p>Fumigation of imported and exported wooden crates</p>	<p>Uruguay Government adopted ISPM-15 (International standards for Phytosanitary Measures Publication 15).</p> <p>Guidelines for Regulating Wood Packaging Material in International Trade (aka NIFM-15) to standardise the treatment of wood packing materials used for the transport of goods.</p>	<p>Basically, all wood containers (Lift vans) that come into Uruguay must be FUMIGATED against plagues, and with the control made properly identified. Basically, the more relevant points are the following ones:</p> <ol style="list-style-type: none"> 1) The norm will be applicable from 07/1/05; we were told that the Ministry would apply a month of courtesy, whenever the packing does not contain any plague. 2) The requirement is fulfilled by means of a seal in the wood. If the load comes from a non-signatory country of the convention a sanitary certificate in paper must be done. 3) The Treatment to the packing will be by the following procedures: a) by heat treatment at 56° in the centre of the wood during 30 minutes; or, b) with methyl Bromide. (BR). 4) Does not apply to: Particle Plywood, boards, pieces smaller than 6mm thickness. 5) The woods carried by the trucks (propping, tops, etc.) also must be treated. (It is suggested to inform to your Carriers). 6) Seals must be in 2 sides of the pallet of such form that always are visible. 7) Containers of Imports “House to House” are going to be verified in the deposit of the client. 	

Goods	Documents required	Customs Prescriptions	Remarks
		<p>8) The MGAP, in cases of reiteration of situations of not fulfilling the norm, could reject the entire shipment, not only the packing.</p> <p>9) Signatory countries are: Argentine, Chile, Brazil, Paraguay and Uruguay.</p> <p>10) Exporting companies that deal their packages with BR. are 21 to make the boarding - first -; the reason is protection castrates ozone, reason why it is given.</p>
